**PERSONAL STATEMENT:**

I am a **Computer Engineering student** with a strong passion for modern technology and innovation. Over the years, I’ve grown eager to explore how rapidly evolving tools, systems, and ideas reshape the world around us. Whether it’s in hardware, software, or the fusion of both, I’m driven by curiosity to understand, create, and improve solutions that matter.

I see every project as an opportunity to **learn, innovate, and push boundaries**. Whether over the span of years or even just months. My goal is to continually adapt to the fast-paced tech landscape, contribute fresh ideas, and be part of shaping the future of engineering and technology.
